- Bhayander (E)
- Aditya Kamble

EDUCATION

2023 - On Going MUMBAI UNIVERSITY

- Pursuing Information Technology Engg. in Pravin Rohidas Patil College of Engg & Tech.

2020 - 2022 MAHARASHTRA BOARD

- Completed H.S.C. from M.U.M Udgir, Dist. Latur

SKILLS

- Software Development
- Full Stack Projects
- Web Design
- Front-End
- Graphic Designer
- MERN Stack
- Java Fundamentals
- Core Java
- UI/UX Design
- Oracle

LANGUAGES

- English (Intermediate)
- Marathi (Fluent)
- Hindi (Fluent)

PROFILE

I am **Aditya Ravindra Kamble**, a Final-Year Information Technology Engineering Student and a **Full Stack Developer** with a strong foundation in **Core Java** and **Java fundamentals**. I have hands-on experience building multiple web applications using **Core Java, Servlets, JSP, MySQL, and Oracle**. Currently, I am upgrading my skill set by developing new projects using the **MERN stack** and expanding my expertise toward the **MEAN stack** in the near future. I am deeply interested in scalable **application development** and modern **web technologies**, with a clear goal of transitioning into **Cloud Computing and DevOps tools**.

WORK EXPERIENCE

SimpliLearn | SkillUp

Apr 16, 2025 - June 16, 2026

MERN Stack

- Hands-on experience in developing full stack web applications using the MERN stack with a focus on modular architecture and reusable components.
- Implemented RESTful APIs, backend business logic, and database integrations using Node.js, Express.js, and MongoDB.
- Built responsive and performant UI with React.js, ensuring seamless frontend-backend integration and optimized user experience.

CodVeda

May 26, 2026 - June, 26-2026

Full Stack Development

- Successfully completed and submitted multiple Java Full Stack projects as part of structured course assignments, adhering strictly to timelines and technical requirements.
- Designed and developed end-to-end applications using Java, Servlets, JSP, and relational databases, demonstrating strong understanding of full stack workflows and project execution.

Cloud Computing

Oct 12, 2025

SDAC INFOTECH

JUNE 2025 - AUG 2025

Hybrid Application Development

- Successfully completed a Hybrid Application Development Internship at SDAC INFOTECH, gaining hands-on experience in Generative AI-driven development, real-world project implementation, and modern application workflows.
- Demonstrated strong technical skills, adaptability, and consistent performance throughout the internship tenure.

PROJECTS

EduPlus

Student Mark Analysis

Developed a dynamic web-based system that not only stores student marks but also performs real-time analysis, including percentage calculation, grade generation, topper identification, and performance comparison across different exams.

NovaX Trades

Import Export Platform

A role-based web application using the MERN stack. The system implements secure authentication and authorization, enabling users to manage import and export goods with controlled access based on roles. Focused on scalable architecture, data integrity, and seamless frontend-backend integration.

lovetool.in

Fully Deployed & Monetized Web Platform

Developed and successfully deployed LoveTools (lovetool.in) using custom domain integration, and implemented ad monetization (Google AdSense & ad networks) to generate revenue from user traffic.

ADDITIONAL INFORMATION

- Quick learner with a strong passion for technology and continuous self-improvement
- Easily Readable Java Codes, & Writable Pojo, JDBC, Overloading, Overriding, Conainment & etc.
- Comfortable working in both team-based and independent environments
- Strong time-management skills with the ability to meet deadlines effectively
